

The **Long Range I Course** is specifically crafted for shooters who possess a solid foundation in firearm safety and marksmanship, aiming to extend their capabilities to engage targets effectively out to **1000 yards**. This immersive program blends foundational marksmanship refinement with intermediate and advanced ballistic concepts, empowering participants to achieve consistent, precise long-range shooting.

Through a progressive curriculum, students will enhance their shooting fundamentals, deepen their understanding of ballistics and rifle performance, and master the techniques necessary for engaging distant targets with confidence.

Whether you seek to sharpen your skills or embrace the challenge of long-range precision shooting, this course offers the tools, coaching, and methodologies to foster measurable and lasting improvement.

What to Expect

Course Objectives

- **Refine Core Fundamentals** Develop stable shooting positions, optimize the use of optics and reticles, and perfect trigger control to build a foundation for reliable accuracy.
 - **Master the Science of Long Range Shooting** Explore external ballistics, environmental factors, and ballistic calculators to empower independent practice and skill growth.
 - **Expand Positional Shooting Skills** Transition from prone to realistic and competition-style shooting positions, gaining insight into personal limits and next steps for advancement.
 - **Set a Baseline for Ongoing Growth** Establish clear, measurable benchmarks for performance and a roadmap for continuous skill refinement.
-

Tailored Instruction

- Designed for beginning to intermediate shooters seeking to elevate their marksmanship.
 - Personalized coaching ensures meaningful development tailored to each participant's needs.
-

Recommended Gear List

- **Precision Rifle:** Capable of sub-minute of angle (MOA) accuracy.
 - **Scoped Rifle Rentals:** Available upon request.
 - **Scope:** Equipped with MOA or Milradian adjustment turrets and Mil-Dot or MOA variant reticles.
 - **Ammunition:** 200 rounds of match-grade ammo (purchase available prior to course at [Apex Armament](#)).
 - **Rifle Bipod:** Models such as Atlas, Harris S series BR or L.
 - **Cheek Rest:** For rifles lacking adjustable cheek pieces.
 - **Shooting Mat:** For comfort and stability.
 - **Spotting Scope/Stand:** Optional but recommended.
 - **Calculator:** Small or smartphone-based for ballistic calculations.
 - **Sand/Bean Bag:** For buttstock support.
 - **Ear and Eye Protection:** Electronic ear protection and ballistic-rated eye protection.
 - **Weather-Appropriate Clothing:** Including rain gear, sun protection, and insect repellent.
 - **Additional:** Ball cap or boonie hat, backpack or drag bag for gear transport.
-

Time & Location

- Class begins promptly at **0800**. Early arrival is encouraged for gear preparation.
 - Location: Main clubhouse, N3041 County Rd A, Cascade, WI 53011.
-

Range Fees

- \$50 payable on-site to Highlands Range to support facility and staff.
-

Weather Policy

- The course proceeds rain or shine. Participants should prepare for outdoor conditions.
-

Eligibility

- Participants must meet all legal firearm possession requirements and be of appropriate age.

Cancellation Policy

- **Instructor Cancellation:** Full refund or credit toward future course.
- **Student Cancellation:**
 - 7+ days' notice: Full credit transfer.
 - Less than 7 days: No refunds or credits.

\$ Course Cost

- \$450 per student.

We look forward to helping you advance your long-range shooting skills with professional instruction and a supportive learning environment.
